Independent Auditor's Report

To the Board of Commissioners
Brunswick Regional Water and Sewer H2GO
Leland, North Carolina

Report on the Audit of Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities and the aggregate remaining fund information of the Brunswick Regional Water and Sewer H2GO (the "District"), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate remaining fund information of the Brunswick Regional Water and Sewer H2GO as of June 30, 2022, and the respective changes in financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Brunswick Regional Water and Sewer H2GO, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Audit of the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raises substantial doubt about the Brunswick Regional Water and Sewer H2GO's ability to continue as a going concern for the twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free of material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- exercised professional judgment and maintained professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Brunswick Regional Water and Sewer H2GO's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Brunswick Regional Water and Sewer H2GO's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Local Government Employees' Retirement System's Schedules of the Proportionate Share of the Net Pension Liability and Contributions be presented to supplement the basic financial statements. Such information is the responsibility of management, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of the Brunswick Regional Water and Sewer H2GO. The combining and individual fund financial statements, budgetary schedules, and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. This information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, budgetary schedules, and other schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Management's Discussion and Analysis

As management of Brunswick Regional Water and Sewer H2GO, we offer readers of the Brunswick Regional Water and Sewer H2GO's financial statements this narrative overview and analysis of the financial activities of Brunswick Regional Water and Sewer H2GO for the fiscal year ended June 30, 2022. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the District's financial statements, which follow this narrative.

Financial Highlights

- The assets and deferred outflows of resources of Brunswick Regional Water and Sewer H2GO exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$109,913,943.
- The government's total net position increased by \$14,857,384.
- Brunswick Regional Water and Sewer H2GO's total debt decreased by \$3,195,005.

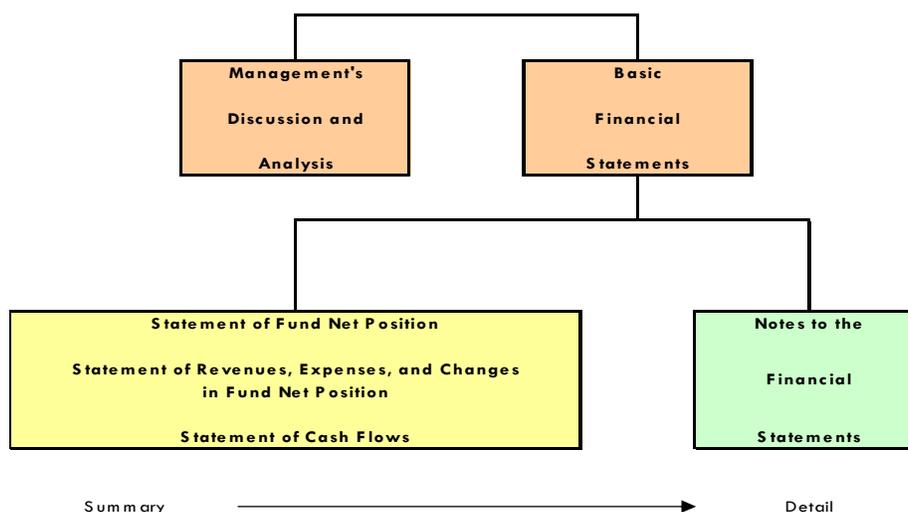

Overview of the Financial Statements

Brunswick Regional Water and Sewer H2GO's primary mission is to provide water and sewer services to the surrounding area. The District does not provide other basic government services or programs. The District's operations, capital expansion projects, and debt payments are funded almost entirely through rates, fees, and other charges for these water and sewer services. As such, Brunswick Regional Water and Sewer H2GO is considered to be, and therefore presents its financial report, as a stand-alone enterprise fund.

As a stand-alone enterprise fund, the District's basic financial statements consist of; Statement of Fund Net Position, Statement of Revenues, Expenses, and Changes in Fund Net Position, Statement of Cash Flows and Notes to the Financial Statements (see Figure 1). These statements, together with the Management's Discussion and Analysis, provide both short-term and long-term financial information about, and implications for the District's position. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of Brunswick Regional Water and Sewer H2GO.

Required Components of Annual Financial Report

Figure 1

Basic Financial Statements

The Statement of Fund Net Position – The statement of fund net position presents the District's basic financial position through disclosure of information about Brunswick Regional Water and Sewer H2GO's assets and liabilities. Net position represents the difference between total assets and total liabilities.

The Statement of Revenues, Expenses, and Changes in Fund Net Position – Similar to private sector statements, the statement of revenues, expenses, and changes in fund net position provides information regarding the District's total economic resource inflow and outflow (accrual method of accounting). The difference between these inflows and outflows represents the change in net position, which ties this statement to the statement of net position.

The Statement of Cash Flows – Deals specifically with the flow of cash and cash equivalents arising from operating, financing and investing activities. Because the District's Statement of Revenues, Expenses, and Changes in Fund Net Position is a measurement of the flow of total economic resources, operating income usually differs from net cash flow from operations. To enhance the reader's understanding of this difference, the Statement of Cash Flows also includes a reconciliation between these two amounts. In accordance with accounting principles generally accepted in the United States of America, a reconciliation of cash and cash equivalents is also presented in this statement.

Fund Financial Statements

Proprietary Funds – Brunswick Regional Water and Sewer H2GO has one type of proprietary fund. Enterprise funds are used to report the business type activities that the District charges customers to provide. Brunswick Regional Water and Sewer H2GO uses enterprise funds to account for its water and sewer activity.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the financial statements are on pages 22 through 41 of this report.

Interdependence with Other Entities – The District is subject to changes in investment earnings and asset values associated with U.S. Treasury securities because of actions by foreign governments and other holders of publicly held U.S. Treasury Securities.

Other Information – In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found after the notes to the financial statements.

Management's Discussion and Analysis (Continued)

Financial Analysis

Brunswick Regional Water and Sewer H2GO's Net Position

Figure 2

	Business-Type Activities	
	2022	2021
Current and other assets	\$ 53,198,716	\$ 62,002,892
Capital assets	139,136,913	118,104,022
Deferred outflows of resources	84,359	565,388
Total assets	193,419,988	180,672,302
Long-term liabilities outstanding	75,748,614	80,030,414
Other liabilities	6,831,562	5,575,666
Deferred inflows of resources	655,869	9,663
Total liabilities	83,236,045	85,615,743
Net position:		
Net investment in capital assets	60,279,438	36,507,467
Unrestricted	49,634,505	58,549,092
Total net position	\$ 109,913,943	\$ 95,056,559

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred outflows of Brunswick Regional Water and Sewer H2GO exceeded liabilities and deferred inflows by \$109,913,943 as of June 30, 2022. The District's net position increased by \$14,857,384 for the fiscal year ended June 30, 2022. However, a large portion (54.84%) reflects the District's net investment in capital assets (e.g. land, buildings, machinery, and equipment) less any related debt still outstanding that was issued to acquire those items. Brunswick Regional Water and Sewer H2GO uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although Brunswick Regional Water and Sewer H2GO's investment in its capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. The remaining balance of \$49,634,505 is unrestricted.

Several particular aspects of the District's financial operations positively influenced the total unrestricted governmental net position:

- Significant increases in collection of fees for services.

Business-type activities. Business-type activities increased the District's net position by \$14,857,384.

Management's Discussion and Analysis (Continued)

Capital Asset and Debt Administration

Capital assets. Brunswick Regional Water and Sewer H2GO's investment in capital assets for its business-type activities as of June 30, 2022, totals \$139,136,913 (net of accumulated depreciation and amortization). These assets include buildings, land, vehicles, infrastructure, and equipment.

Major capital asset transactions during the year include the following:

- Continued progress on capital projects and infrastructure expansion.
- Acquisition of vehicles and equipment.

Brunswick Regional Water and Sewer H2GO's Capital Assets

Figure 4

	(Net of Depreciation and Amortization)	
	Business-Type Activities	
	2022	2021
Land	\$ 1,577,596	\$ 1,552,596
Buildings	53,390	61,177
Vehicles and Equipment	1,310,101	1,223,258

BRUNSWICK REGIONAL WATER AND SEWER H2GO

Notes to the Financial Statements
For the Year Ended June 30, 2022

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Brunswick Regional Water and Sewer H2GO conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A. Reporting Entity

The Brunswick Regional Water and Sewer H2GO is a municipal corporation that is governed by a five-member board. As required by generally accepted accounting principles, these financial statements present the District. The District does not have any component units that should be presented.

B. Basis of Presentation

The Brunswick Regional Water and Sewer H2GO is a single enterprise fund, the Water and Sewer Fund, which is used to account for the District's water and sewer operations.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies result from non-exchange transactions. Other non-operating revenues are ancillary activities such as investment earnings.

The District reports the following major enterprise fund.

Water and Sewer Fund. This fund is used to account for the District's water and sewer operations.

C. Measurement Focus and Basis of Accounting

In accordance with North Carolina General Statutes, all funds of the District are maintained during the year using the modified accrual basis of accounting.

Proprietary Fund Financial Statements. The proprietary fund financial statements are reported using the economic resources measurement focus. The proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants and donations. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

BRUNSWICK REGIONAL WATER AND SEWER H2GO

Notes to the Financial Statements (Continued)

For the Year Ended June 30, 2022

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus and Basis of Accounting (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District are charges to customers for sales and services. The District also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the water and sewer system. Operating expenses for the District include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Budgetary Data

The District's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the Enterprise Fund and the Enterprise Fund Capital Reserve Funds. All annual appropriations lapse at the fiscal-year end. Project ordinances are adopted for the Enterprise Capital Projects Funds. The enterprise fund projects are consolidated with their respective operating fund for reporting purposes. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the functional level for all annually budgeted funds and at the object level for the multi-year funds. Amendments are required for any revisions that alter total expenditures of any fund or that change functional appropriations by more than \$1,500. All amendments must be approved by the governing board. The budget ordinance must be adopted by July 1 of the fiscal year or the governing board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity

1. Deposits and Investments

All deposits of the District are made in board-designated official depositories and are secured as required by State law [G.S. 159-31]. The District may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the District may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the District to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances and the North Carolina Capital Management Trust (NCCMT).

The District's investments are generally reported at fair value. The NCCMT – Government Portfolio, a SEC-registered (2a-7) money market mutual fund, is measured at fair value. Because the NCCMT Government Portfolio has a weighted average maturity of less than 90 days, it is presented as an investment with a maturity of less than 6 months.

BRUNSWICK REGIONAL WATER AND SEWER H2GO

Notes to the Financial Statements (Continued)

For the Year Ended June 30, 2022

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

2. Cash and Cash Equivalents

All cash is essentially demand deposits and are considered cash and cash equivalents.

3. Restricted Assets

Customer deposits held by the District before any services are supplied are restricted to the service for which the deposit was collected.

Restricted Cash	
Business-type Activities	
Water and Sewer Fund	
Customer Deposits	\$ 941,212
Total Restricted Cash	<u>\$ 941,212</u>

4. Unbilled Service Revenues

An amount of \$1,488,942 has been accrued for estimated water and sewer usage and minimum fees earned, but not billed through June 30, 2022.

5. Allowances for Doubtful Accounts

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that were written off in prior years and reviewing the remaining balances due to the District. As of June 30, 2022, the District reported an allowance for doubtful accounts in the amount of \$70,000.

6. Inventory and Prepaid Items

The inventories of the District are valued at cost (first-in, first-out), which approximates market. The inventories of the District's enterprise funds consist of materials and supplies held for subsequent use. The cost of these inventories is expensed when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items and expensed as the items are used.

BRUNSWICK REGIONAL WATER AND SEWER H2GO

Notes to the Financial Statements (Continued)

For the Year Ended June 30, 2022

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

7. Capital Assets

Capital assets are defined by the District as assets with an initial, individual cost of more than a certain cost and an estimated useful life in excess of two years. Minimum capitalization costs are as follows: machinery, equipment and vehicles, \$10,000 and land, buildings and infrastructure, \$100,000. Donated capital assets received prior to June 15, 2015 are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 15, 2015 are recorded at acquisition value. All other purchased or constructed capital assets are reported at cost or estimated historical cost. General infrastructure assets acquired prior to July 1, 2003 are not recorded. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Water Distribution System	50
Buildings	40
Other Equipment	5-10
Vehicles	5
Intangible Assets	15

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The District has one item that meets this criterion, pension deferrals for the 2022 fiscal year. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District has one item that meets this criterion, pension deferrals.

9. Long-Term Obligations

In the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method that approximates the effective interest method. Bonds payable are reported net of the applicable bond premiums or discount. Bond issuance costs, except for prepaid insurance costs, are expensed in the reporting period in which they are incurred. Prepaid insurance costs are expensed over the life of the debt.

Notes to the Financial Statements (Continued)

For the Year Ended June 30, 2022

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Equity (Continued)

10. Compensated Absences

The vacation policy of the District provides that an employee shall earn 6 days of vacation during the first year of employment, 12 days during the second through fourth years of employment, 18 days during the fifth through ninth year of employment, and 24 days for ten or more years of employment. The vacation policy provides for an unlimited accumulation of earned vacation days. Vacation is fully vested when earned. The District has recorded an expense and a liability for compensated absences and the salary related payments are recorded as the leave is earned. The District has assumed the last-in, first-out method of using accumulated compensation time.

The District's sick leave policy provides for an accumulation of 8 hours of sick leave per month of employment. There is no limit on the accumulation of earned sick leave. Since the District has no obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made.

11. Net Position/Fund Balances

Net Position

Net position in proprietary fund financial statements is classified as net investment in capital assets; restricted; and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

12. Defined Benefit Cost-Sharing Plans

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Local Government Employees' Retirement System (LGERS) and additions to/deductions from LGERS' fiduciary net position have been determined on the same basis as they are reported by LGERS. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The Brunswick Regional Water and Sewer H2GO employer contributions are recognized when due and the Brunswick Regional Water and Sewer H2GO has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of LGERS. Investments are reported at fair value.

BRUNSWICK REGIONAL WATER AND SEWER H2GO

Notes to the Financial Statements (Continued)

For the Year Ended June 30, 2022

II. DETAIL NOTES ON ALL FUNDS**A. Assets****1. Deposits**

All the deposits of the District are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits that exceed the federal depository insurance coverage level are collateralized with securities held by the District's agents in its name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the District, these deposits are considered to be held by the District's agents in its name. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the District or the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the District under the Pooling Method, the potential exists for under-collateralization. This risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The District has no formal policy regarding custodial credit risk for deposits, but relies on the State Treasurer to enforce standards of minimum capitalization for all pooling method financial institutions and to monitor them for compliance. The District complies with the provisions of G.S. 159-31 when designating official depositories and verifying that deposits are properly secured.

At June 30, 2022, the District's deposits had a carrying amount of \$48,404,596 and a bank balance of \$48,498,650. Of the bank balance, \$750,000 was covered by federal depository insurance and the remainder was covered by collateral held under the pooling method. At June 30, 2022, the District's petty cash funds totaled \$900.

2. Investments

At June 30, 2022, the Brunswick Regional Water and Sewer H2GO had the following investments and maturities.

Investments by Type	Valuation Measurement Method	Fair Value at 6/30/2022	Maturity
US Government Agencies	Fair Value Level 1	-	1 – 15 years
NC Capital Management Trust – Government Portfolio	Fair Value Level 1	547,907	Less than 6 months
Total:		<u>\$ 547,907</u>

II. DETAIL NOTES ON ALL FUNDS (Continued)

A. Assets (Continued)

2. Investments (Continued)

Credit Risk. The District limits investments to the provisions of G.S. 159-30 and restricts the purchase of securities to the highest possible ratings whenever particular types of securities are rated. The District's investments in US Agencies (Federal Home Loan Bank, Federal National Mortgage Association, Federal Farm Credit Bank, and Federal Home Loan Mortgage Corporation) are rated AAA by Standard & Poor's and Aaa by Moody's Investors Service. The District's investments in the NC Capital Management Trust Government Portfolio carried a credit rating of AAAM by Standard & Poor's as of June 30, 2022.

Concentration of Credit Risk. The District places no limit on the amount that the District may invest in any one issuer

3. Receivables - Allowances for Doubtful Accounts

The amounts presented in the Balance Sheet and the Statement of Net Position for the year ended June 30, 2022 are net of the following allowances for doubtful accounts:

Fund	06/30/2022
Enterprise Fund:	
Water and Sewer – Accounts Receivable	\$ 70,000
Total	\$ <u>70,000</u>

B. Liabilities

1. Pension Plan Obligations

a. Local Governmental Employees' Retirement System

Plan Description. The Brunswick Regional Water and Sewer H2GO is a participating employer in the statewide Local Governmental Employees' Retirement System (LGERS), a cost sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS membership is comprised of general employees and local law enforcement officers (LEOs) of participating local governmental entities. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. Management of the plan is vested in the LGERS Board of Trustees, which consists of 13 members – nine appointed by the Governor, one appointed by the State Senate, one appointed by the State House of Representatives, and the State Treasurer and State Superintendent, who serve as ex-officio members. The Local Governmental Employees' Retirement System is included in the Annual Comprehensive Financial Report for the State of North Carolina. The State's Annual Comprehensive Financial Report includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, by calling (919) 981-5454, or at www.osc.nc.gov.

Benefits Provided. LGERS provides retirement and survivor benefits. Retirement benefits are determined as 1.85% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. Plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. Plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service (age 55 for firefighters). Survivor benefits are available to eligible beneficiaries of members who die while in active service or within 180 days of their last day of service and who have either completed 20 years of creditable service regardless of age (15 years of creditable service for firefighters and rescue squad members who are killed in the line of duty) or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

Contributions. Contribution provisions are established by General Statute 128-30 and may be amended only by the North Carolina General Assembly. Brunswick Regional Water and Sewer H2GO employees are required to contribute 6% of their compensation. Employer contributions are actuarially determined and set annually by the LGERS Board of Trustees. The Brunswick Regional Water and Sewer H2GO's contractually required contribution rate for the year ended June 30, 2022, was 11.35% of compensation for general employees, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Contributions to the pension plan from the District were \$343,677 for the year ended June 30, 2022.

BRUNSWICK REGIONAL WATER AND SEWER H2GO

Notes to the Financial Statements (Continued)

For the Year Ended June 30, 2022

II. DETAIL NOTES ON ALL FUNDS (Continued)**B. Liabilities (Continued)****1. Pension Plan Obligations (Continued)****a. Local Governmental Employees' Retirement System (Continued)**

Refunds of Contributions – District employees who have terminated service as a contributing member of LGERS, may file an application for a refund of their contributions. By state law, refunds to members with at least five years of service include 4% interest. State law requires a 60 day waiting period after service termination before the refund may be paid. The acceptance of a refund payment cancels the individual's right to employer contributions or any other benefit provided by LGERS.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the District reported a liability of \$454,558 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2020. The total pension liability was then rolled forward to the measurement date of June 30, 2021, utilizing update procedures incorporating the actuarial assumptions. The District's proportion of the net pension liability was based on a projection of the District's long-term share of future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan of all participating LGERS employers, actuarially determined. At June 30, 2021 (measurement date), the District's proportion was 0.02964%, which was an increase of 0.00213% from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the District recognized pension expense of \$212,420. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 144,611	\$ -
Changes of assumptions	285,578	-
Net difference between projected and actual earnings on pension plan investments	-	649,427
Changes in proportion and differences between District contributions and proportionate share of contributions	40,493	6,442
District contributions subsequent to the measurement date	343,677	-
Total	\$ 814,359	\$ 655,869

BRUNSWICK REGIONAL WATER AND SEWER H2GO

Notes to the Financial Statements (Continued)

For the Year Ended June 30, 2022

II. DETAIL NOTES ON ALL FUNDS (Continued)**B. Liabilities (Continued)****1. Pension Plan Obligations (Continued)****a. Local Governmental Employees' Retirement System (Continued)**

\$343,677 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a decrease of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:	
2023	\$ 55,440
2024	(3,455)
2025	(38,443)
2026	(198,729)
2027	-
Thereafter	-
Total	<u>\$ (185,187)</u>

Actuarial Assumptions. The total pension liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0 percent
Salary Increase	3.50 to 8.10 percent, including inflation and productivity factor
Investment Rate of Return	6.50 percent, net of pension plan investment expense, including inflation

The plan currently uses mortality tables that vary by age, gender, employee group (i.e. general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2020 valuation were based on the results of an actuarial experience study for the period January 1, 2010 through December 31, 2014.

Future ad hoc COLA amounts are not considered to be substantively automatic and are therefore not included in the measurement.

BRUNSWICK REGIONAL WATER AND SEWER H2GO

Notes to the Financial Statements (Continued)

For the Year Ended June 30, 2022

II. DETAIL NOTES ON ALL FUNDS (Continued)**B. Liabilities (Continued)****1. Pension Plan Obligations (Continued)****a. Local Governmental Employees' Retirement System (Continued)**

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2021 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed Income	29.0%	1.4%
Global Equity	42.0%	5.3%
Real Estate	8.0%	4.3%
Alternatives	8.0%	8.9%
Credit	7.0%	6.0%
Inflation Protection	6.0%	4.0%
Total	100%	

The information above is based on 30 year expectations developed with the consulting actuary for the 2020 asset, liability, and investment policy study for the North Carolina Retirement Systems, including LGERS. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.00%. All rates of return and inflation are annualized.

BRUNSWICK REGIONAL WATER AND SEWER H2GO

Notes to the Financial Statements (Continued)

For the Year Ended June 30, 2022

II. DETAIL NOTES ON ALL FUNDS (Continued)

B. Liabilities (Continued)

1. Pension Plan Obligations (Continued)

a. Local Governmental Employees' Retirement System (Continued)

Discount rate. The discount rate used to measure the total pension liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension asset to changes in the discount rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.50 percent, as well as what the District's proportionate share of the net pension asset or net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.50 percent) or one percentage point higher (7.50 percent) than the current rate:

	1% Decrease (5.50%)	Discount Rate (6.50%)	1% Increase (7.50%)
District's proportionate share of the net pension liability (asset)	\$ 1,764,556	\$ 454,558	\$ (623,494)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Annual Comprehensive Financial Report for the State of North Carolina.

b. Supplemental Retirement Income Plan

Plan Description. The District contributes to the Supplemental Retirement Income Plan (Plan), a defined contribution pension plan administered by the Department of State Treasurer and a Board of Trustees. The Plan provides retirement benefits to those employed by Brunswick Regional Water and Sewer H2GO. Article 5 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Supplemental Retirement Income Plan is included in the Annual Comprehensive Financial Report for the State of North Carolina. The State's Annual Comprehensive Financial Report includes the pension trust fund financial statements for the Internal Revenue Code Section 401(k) plan that includes the Supplemental Retirement Income Plan. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

II. DETAIL NOTES ON ALL FUNDS (Continued)**B. Liabilities (Continued)****1. Pension Plan Obligations (Continued)****b. Supplemental Retirement Income Plan (Continued)**

Funding Policy. Article 12E of G.S. Chapter 143 requires the Brunswick Regional Water and Sewer H2GO to contribute each month an amount equal to five percent of each employee's salary, and all amounts contributed are vested immediately. Also, the employees may make voluntary contributions to the plan. The District made contributions of \$127,505 for the year ended June 30, 2022. No amounts were forfeited.

2. Deferred Outflows and Inflows of Resources

Deferred outflows of resources reported on the Statement of Net Position is comprised of the following:

	Amount
Contributions to Pension Plan in Current Fiscal Year	\$ 343,677
Difference between expected and actual experience	144,611
Changes of assumptions	285,578
Net difference between projected and actual	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	40,493
Charge on refunding	-
Total	<u>\$ 814,359</u>

Deferred inflows of resources at year-end is comprised of the following:

	Amount
Changes in proportion and differences between employer contributions and proportionate share of contributions	\$ 6,442
Net difference between projected and actual earnings on pension plan investments	649,427
Total	<u>\$ 655,869</u>

Notes to the Financial Statements (Continued)

For the Year Ended June 30, 2022

II. DETAIL NOTES ON ALL FUNDS (Continued)

B. Liabilities (Continued)

3. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District participates in the three self-funded risk-financing pools administered by the North Carolina League of Municipalities. Through these pools the District obtains general liability of \$3 million and auto liability of \$1 million per occurrence, property coverage up to the total insurance values of the property policy, workers' compensation coverage up to statutory limits, and employee health coverage up to a \$5 million lifetime limit. The pools are reinsured through commercial companies for single occurrence claims against general liability, auto liability and property in excess of \$1,000,000 and \$5,000,000 up to statutory limits for workers' compensation. The pools are reinsured for annual employee health claims in excess of \$150,000. The property liability pool has an aggregate limit for the total property losses in a single year, with the reinsurance limit based upon a percentage of the total insurance values.

The District carries no flood insurance through the National Flood Insurance Plan (NFIP), as they are considered to be in a low-risk area.

The District carries commercial coverage for all other risks of loss. There have been no significant reductions in insurance coverage in the prior year and settled claims have not exceeded coverage in any of the past three fiscal years.

In accordance with G.S. 159-29, the District's employees that have access to \$100 or more at any given time of the District's funds are performance bonded through a commercial surety bond. The finance officer and director are each individually bonded for \$250,000. The remaining employees that have access to funds are bonded under a blanket bond for \$150,000 per occurrence.

4. Claims, Judgments and Contingent Liabilities

At June 30, 2022, the District was a defendant to various lawsuits. In the opinion of the District's management and the attorney, the ultimate effect of these legal matters will not have a material adverse effect on the District's financial position.

BRUNSWICK REGIONAL WATER AND SEWER H2GO

Notes to the Financial Statements (Continued)

For the Year Ended June 30, 2022

II. DETAIL NOTES ON ALL FUNDS (Continued)**B. Liabilities (Continued)****5. Long-Term Obligations****a. Revenue Bonds**

Effective July 2012, the District refinanced the following revenue bonds by issuing Water and Sewer Revenue Bonds, Series 2012 in the amount of \$6,855,000: Sewer System Revenue bonds, Series 2004A in the amount of \$2,752,000, Sewer System Revenue bonds, Series 2004B in the amount of \$1,303,000, Sewer System Revenue bonds, Series 2006 in the amount of \$2,095,000, and Sewer System Revenue Bonds, Series 2006B in the amount of \$705,000.

Debt at June 30, 2022 is comprised of the following:

Water and Sewer System Revenue Bonds, Series 2020, due in annual principal payments ranging from \$1,723,000 to \$2,777,000, plus interest at 2.65 percent through August 2040. \$ 42,000,000

Water and Sewer System Revenue Bonds, Series 2012, due in annual principal payments ranging from \$396,394 to \$523,033, plus interest at 2.00 percent through July 2027. 2,988,327

Total Revenue Bonds \$ 44,988,327

The future payments of the revenue bond are as follows:

Year Ending June 30	Business Type Activities	
	Principal	Interest
2023	\$ 2,196,727	\$ 1,149,937
2024	2,253,202	1,094,180
2025	2,309,866	1,036,988
2026	2,368,723	978,332
2027	2,428,777	918,166
2028-2032	10,902,032	3,697,738
2033-2037	11,851,000	2,216,579
2038-2041	10,678,000	575,342
Total	<u>\$ 44,988,327</u>	<u>\$ 11,667,262</u>

Notes to the Financial Statements (Continued)

For the Year Ended June 30, 2022

II. DETAIL NOTES ON ALL FUNDS (Continued)**B. Liabilities (Continued)****5. Long-Term Obligations (Continued)****a. Revenue Bonds (Continued)**

The District is in compliance with the covenants as to rates, fees, rentals and charges in Section 5.01 of the Bond Order, authorizing the issuance of the Water and Sewer Revenue Bonds, Series 2012. Section 5.01(c)(3) of the Bond Order requires the debt service coverage ratio to be no less than 110%. The debt service coverage ratio calculation for the year ended June 30, 2022, is as follows:

Operating revenues	\$ 34,102,712
Operating expenses*	<u>15,917,678</u>
Operating income	18,185,034
Nonoperating revenues (expenses)**	<u>51,319</u>
Income available for debt service	18,236,353
Debt service, principal and interest paid (Subordinated Indebtedness only)	-
Debt service, principal and interest paid (Other Improvements to System Financing only)	<u>5,417,890</u>
Income available for debt service (before Revenue Bond)	12,818,463
Debt service, principal and interest paid (Revenue bond only)	\$ 533,494
Debt service coverage ratio	2402%

* Per rate covenants, this does not include the depreciation expense of \$1,736,326 and amortization of \$2,485,944.

** Per rate covenants, this does not include interest of \$2,678,810.

II. DETAIL NOTES ON ALL FUNDS (Continued)

B. Liabilities (Continued)

5. Long-Term Obligations (Continued)

b. Interlocal Agreements

The District has incurred the following liability through joint service agreements with Brunswick County. In these agreements, the District shares in the costs and debt of certain sewer infrastructure financed by the County. These agreements require principal payments due annually with semiannual interest payments, at an annual interest rate of 1.84% to 5.00%.

Annual debt service requirements to maturity for interlocal agreements are as follows:

Year Ending June 30	Business Type Activities	
	Principal	Interest
2023	\$ 1,629,148	\$ 1,453,321
2024	1,280,000	1,385,900
2025	1,340,000	1,321,900
2026	1,415,000	1,254,900
2027	1,485,000	1,184,150
2028-2032	8,590,000	4,732,000
2033-2037	10,655,000	2,677,700
2038-2040	7,475,000	528,300
Total	<u>\$ 33,869,148</u>	<u>\$ 14,538,171</u>

c. Changes in Long-Term Liabilities

	Balance 07/01/21	Increases	Decreases	Balance 06/30/22	Current Portion of Balance
<u>Business-type activities:</u>					
Revenue Bonds	\$ 45,452,765	\$ -	\$ 464,438	\$ 44,988,327	\$ 2,196,727
Interlocal Agreements	36,143,790	-	2,274,642	33,869,148	1,629,148
Compensated Absences	189,890	72,566	-	262,456	-
Net Pension Liability (LRS)	983,049	-	528,491	454,558	-
Business-type activity long-term liabilities	<u>\$ 82,769,494</u>	<u>\$ 72,566</u>	<u>\$ 3,267,571</u>	<u>\$ 79,574,489</u>	<u>\$ 3,825,875</u>

Compensated absences are accounted for on a LIFO basis, assuming that employees are taking leave as it is earned.
